RESPITE UNIT PROGRAM

Sibling Care

There are two types of sibling care:

1. Authorized by Regional Center
2. Not authorized by Regional Center

There are two types of authorized sibling care:

1. Attached
2. Unattached

Attached sibling care is when all authorized siblings have to be watched together. They will each require their own separate time sheet and dates and times **MUST** be the same.

Unattached sibling care is when authorized siblings can be watched separately. They will each require their own separate time sheet but the dates and times do **NOT** have to be the same.

There is only one type of unauthorized sibling care:

1. Siblings who are not authorized by Regional Center can be watched at your discretion. This care is done by the provider and the rate is negotiable between you and the parent.

**PLEASE CONTACT THE RESPITE UNIT ABOUT ANY QUESTIONS ABOUT
AUTHORIZED SIBLING CARE.**
